

Green Campus Initiatives by Institution

The campus houses the Medical Unit, society Office, A School of special education run by Bombay Municipal corporation, Regular school having a playgroup, nursery, Primary, Secondary and higher Secondary sections and a B.Ed. College. The Institution hence has devised some Policies in the light of maintaining pollution-free, user-friendly environment.

1. During working hours of all the Educational Institutions no vehicles are allowed inside the premises.
2. Support staff are provided with bicycle for short distance outdoor duties.
3. A wide pathway with safe paver blocks around three sides of the campus is kept clean and well maintained.
4. Awareness sessions and projects are run to discourage use of plastic within the premises. Small stickers and messages with effective pictures to save water, electricity are fixed all over the college premises.
5. Being placed in the heart of western suburban Mumbai there is a crunch for free space. However green patches are maintained by the institution for beautification like the Terrace on the First floor, a patch in the quadrangle area and on the top of the building. Medicinal as well as show plants are nurtured here.
