Comments or Suggestions as given by students:

20. If you have other comments to offer on the course and suggestions for the teacher, you may do so in the space given below or on a separate sheet.

Answers:

- No
 - Individual marks to be discussed/shown to the students rather than a general discussion on how the paper was written by the peers will help the individual to see which areas he/she needs to improve and definitely can work achieve more.
 - All the extra course like canvas, yoga , multimedia program, entrepreneurship, drug addict and all are so useful and actually necessary for adults and teacher to understand.
 - English speaking course and python are the full waste of time course. It created a lot of pressure for portion completion and didn't get time to study for final exam. Didn't get any help from both the program except who are from computer background (only 3-4 students).
 - Teachers were helpful and encouraged the students.
 - The way of knowing each student and to help was really good and the guidance provided whenever necessary was something new for me.
 - wonderful learning experience
 - It was a totally different experience in this college and going to helpful throughout life and learnt many things, every day was a day of new unknown rules and tasks.
 - It will be more effective when everyone will be seen equally and not according to schools/institute they have learnt from and taking everyone ahead together with equal opportunities.
- It was a pleasure studying in this college 🙏

 - One of my suggestions would be that if teachers can give individual feedback regarding our performance in exams rather than giving feedback based on entire class performance as individual feedback would help one to know which areas one should work on.
 - Taking up this course and doing it from HJ has made a lot of good difference in my life. Thankyou.

 - It was very realistic and practical.
 - It was good
 - Too many assignments and other work for short span course. It could have been reduced a little. Overall, a good course completion and learning
 - This programme had throughout taught us how to be more efficient, and effective as well as work under pressure.
 - No suggestions. It was the best batch and I thoroughly enjoyed studying B.Ed.
 - Python programming training would not relate and fulfil job needs in further life and python sessions those were deliver in excellent manner by resource teacher but without any basic knowledge of python it is very difficult and student won't be able to produce it further when needed.

Speaking skill course was very basic which also is available anywhere on any

platform to learn it wasn't something different that does not have effect on long term basis. The course was good enough but a very basic one Not a distinctive. Could have been better!

Canva is very good and very useful course other workshops were useful PCOS and many more. All the workshops are very relevant for future needs and are needed in daily life.

If Women's Day is celebrated internationally - Why? - to recognise the extraordinary acts of women and to stand together, as a united force, to advance gender equality around the world.

Then why not Men's international day - Why? - to improve gender relations and promote unity. International Men's Day celebrates the contributions that men make to improve the quality of life in society.

Equality is Here. Theme for 2021 for the same is - "Better relations between men and women"

By having a spread of knowledge celebrates equality to recognise every gender.

OVERALL- The outcomes of B.Ed. are achieved in very excellent manner. Definitely it has improved me and given me the ability to be an effective teacher and helped me achieve career goals, also ability to teach, mentor children, and everything was well organised planned and managed by institution.

Thank You.

- Thank you.
- Course was delivered in a comprehensive and systematic manner using innovative teaching methods
- All the small minute inputs which HJ teachers gave (like not to point students, not to be rude, have proper and meticulous planning, integrating topic with different subjects and real life) is applicable in the real setting and something which every teacher needs to keep in mind.

Thank you to the principal ma'am, all teaching non-teaching staff for being there for us always and making us a qualified teacher.

- It was overall a very nice experience.
- Overall, a very effective and amazing experience
- The Overall course was systematically planned and executed but it would have been a smoother process for the students if the duration of the course was little longer as in some aspects, we lacked time.

Analysis of the Comments or Suggestions given by students:

Strengths:

Overall development of the students was a major focus.

Very well prepared the teachers for real world settings

Teachers were cooperative and encouraged the students.

Use of innovative teaching methods

The add on courses were very useful in personal and professional life as a teacher.

Doing the course from HJ has made a remarkable difference in my life.

The course was systematically planned and executed

The Overall course was very realistic, comprehensive and practical.

Suggestions :

More advanced certificate course in English speaking will help a lot rather than the basic course.

If teachers give individual feedback for the essays and assignments it would be appreciated.
